

Gymnasium Salzhhausen 29.09.2022 (Hamlet)

A teacher's opinion

Dear Ms. Seth,

Today I was able to watch the "Hamlet" performance by Imogen Thomas and James Grimstone at my school. I attended the play because it took place during "my" lecture time (I teach physics, math and computer science), so I accompanied my students.

I must say that I was and still am deeply amazed by the whole performance that both actors delivered. I'm a little sad that I can't really express in any more detail how much I enjoyed the play, maybe that's because I'm more of a "natural sciences guy" and not that fluent in English.

Thank you for this experience and I really hope to see something similar maybe next year.
